Jln. Galang Gg. Cemara No. 6 Lubuk Pakam, Sumatera Utara

I am a student at Del Institute of Technology, majoring in Software Engineering Technology, with a strong interest in mobile and web application development. Experienced as a Project Manager. Able to continuously develop skills, have a leadership spirit, and are harmonious. I also really enjoy learning about Swift, HTML, CSS, C, C++, Java, PHP, Python, Machine Learning, AI, React Js, SQL, Kotlin, and other programming that I may not know yet, but I am very happy to explore it further. I have experience learning at the Apple Developer Academy with the Swift programming language. I am also a member of the Google Developer Group.

The mobile application is made for boarding house and homestay entrepreneurs in Toba Regency. It has 2 main roles, namely Tenant and Property Owner. The application we made is called Hommie, similar to similar applications, namely Traveloka, Tiket.com, Booking.com, and Airbnb. However, what distinguishes this application is that this application is widely open to all entrepreneurs, both in urban and rural areas, who can register boarding house or homestay properties and both freely without special conditions but still guaranteed and maintained the quality of the property owned.
